1: Our Logo

Primary Logo

This is the primary logo, for use in English-speaking countries.

Our logo has been carefully crafted, so please always use master artwork and do not attempt to reproduce it.

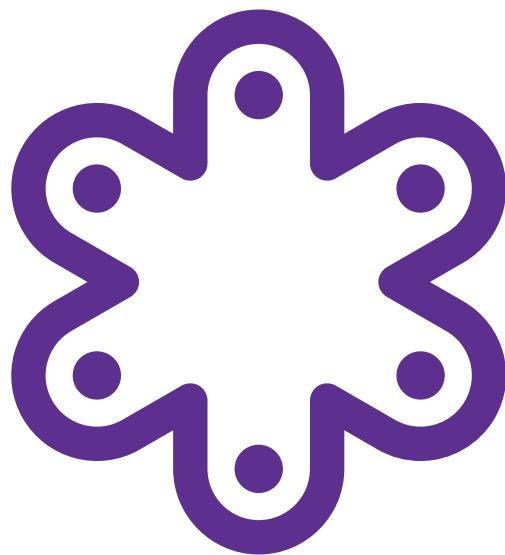

My Family

Flower Mark

This is the My Family Flower Mark.

It is for use in instances where

'My Family' is already clearly represented, for example on social media or as an app icon.

International Logos

The international logos may be used in the same way as the main logo lockup, in their specific countries only.

我的家

China

គួរសាររបស់ខ្ញុំ

Cambodia

Gia đình của tôi

Vietnam

ครอบครัวของฉัน

Thailand

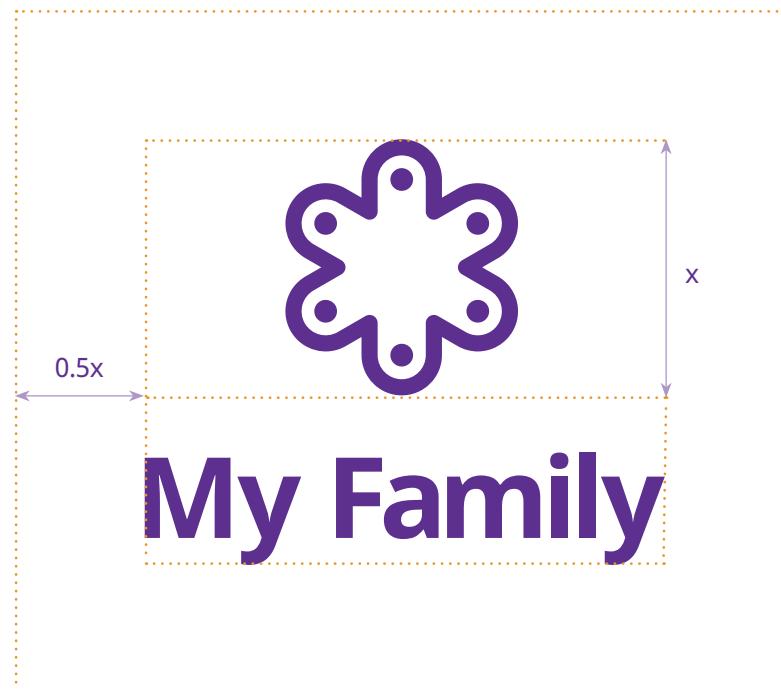

Logo Size/Space

To allow the logo(s) to 'breathe' within communications a clear space should be applied around the logo. This is equal to half the x-height of the Flower.

Please ensure the logo(s) has this amount of clear space around it at a minimum.

Do not use any of the Primary Logos smaller than 15mm wide.

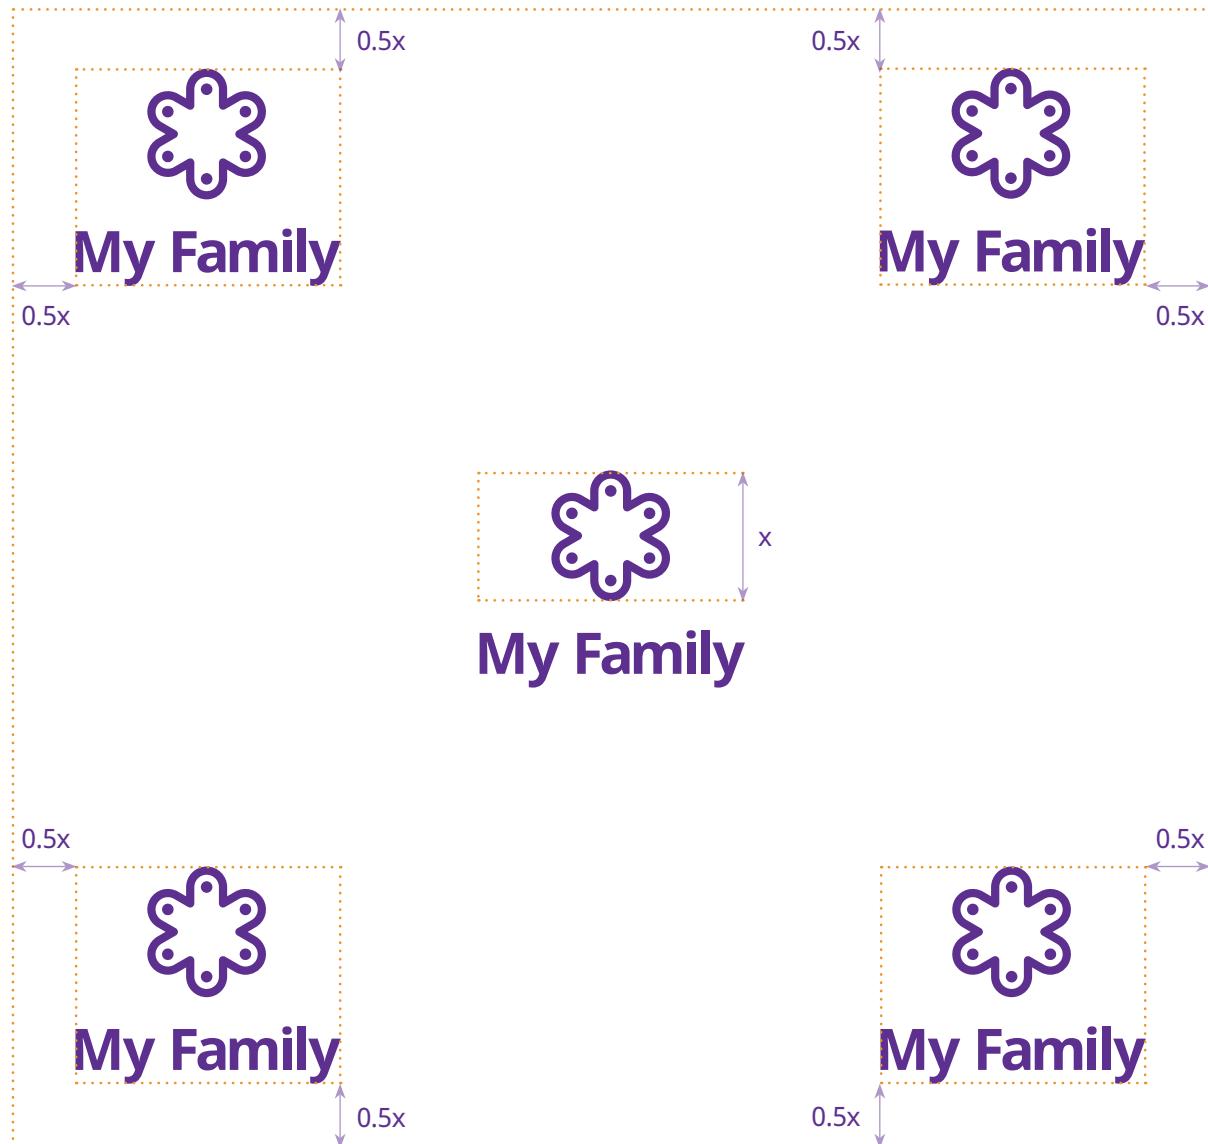

Do not use the My Family Flower smaller than 5mm wide.

Logo Placement

The My Family Logo may be placed in the centre or any of the four corners of a communication.

As a guide, the logo should be no smaller than 1/6 of the canvas in any document.

Logo Colour Application

Our brand is made up of four colours, which are used across all applications.

In most cases, the logo should be applied in cream or purple. In some cases, for example with imagery and darker colours, the logo will need to be applied in white.

Logo Misuse

Do not alter the logos in any way.

My Family

✗ Do not
distort the logo

My Family

✗ Do not
recolour the logo

My Family

✗ Do not
rotate the logo

My Family

✗ Do not
add elements to the logo

✗ Do not
rearrange the logo

My Family

✗ Do not
change elements of the logo

2: Care for Children Logo

Logo Lockup

This is the My Family/Care for Children logo lockup.

In most instances, the My Family logo and Care for Children logo/strapline will need to be used together, unless used in instances where Care for Children branding is already present.

See the following pages for other ways to include Care for Children alongside the My Family logo.

Logo Min Size

Do not replicate any of the Logo Lockups smaller than 30mm wide.

Do not replicate the separate Care for Children logo smaller than 20mm wide.

Logo Rules

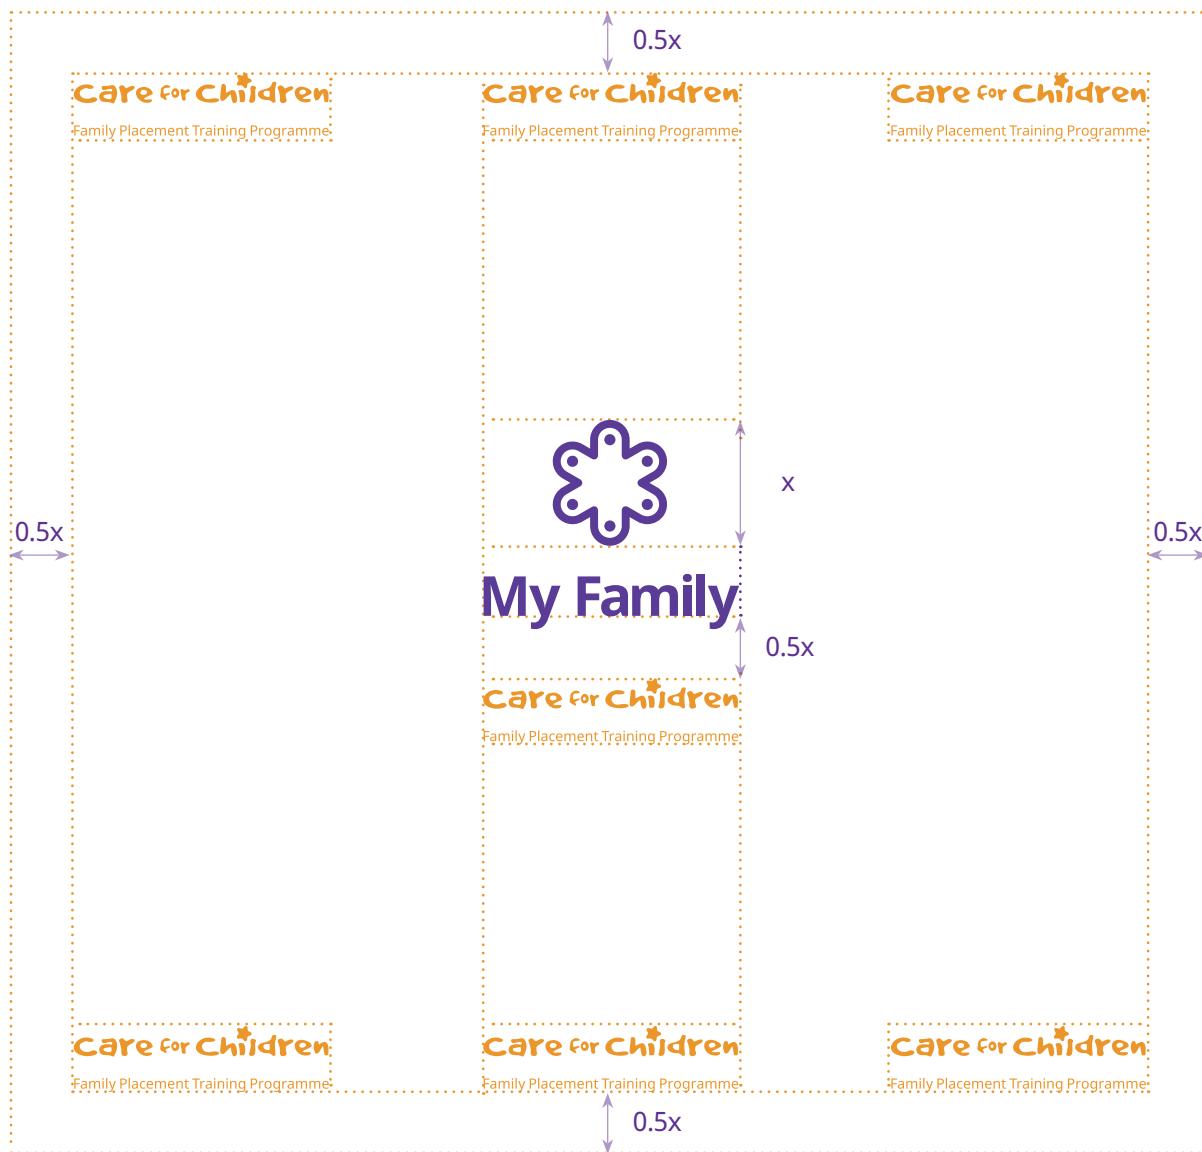

When including My Family and Care for Children logos in the same document, you can either:

- **Use the My Family/Care for Children lockup** (included in the assets pack)
- **Align the Care for Children logo centrally** with the My Family logo. This can go at the top or bottom of the page.
- **Position the Care for Children logo in any corner** of the document, separate to the My Family logo.

Always ensure:

- The width of the Care for Children logo is no larger than the width of the My Family logo.

Note: the Care for Children strapline can be used as a heading instead of being locked-up in the logo.

Logo Colour Application

When possible, the Care for Children logo should be yellow, and the colour of the My Family logo should be something else.

Use the same colour application as previously stated (on page 9) for the My Family logo.

3: Design Elements

Our Colours

Our brand is made up of four colours, which are used across all applications.

Family Purple is our primary colour brand colour and has been chosen for its positive connotations within most of the countries that we work with.

Tints can be used (in increments of 20%) but should be confined to tables, graphs and illustrations.

Family Purple

CMYK: 79/98/3/0
RGB: 93/49/143
HEX: 5D318F

Family Dark Purple

CMYK: 86/100/13/4
RGB: 79/37/128
HEX: 4F2580

Family Cream

CMYK: 0/9/20/0

HEX: FFE7CC

Family Orange

CMYK: 5/47/97/0
RGB: 235/150/42
HEX: EB962A

Our Fonts

Noto Sans is our sole typeface and has been chosen for its accessibility and support across multiple languages.

Generally, Noto Sans Bold is for titles, and Noto Sans Regular is perfect for body copy.

Noto Sans can be downloaded for free here: fonts.google.com/noto

Our Imagery

Our imagery is people-focused; at the centre of all images are the themes of love and connection

When choosing photography consider whether the images are:

- Positive
- In the moment
- Natural, real people

Graphic Elements

Our graphic elements are created by using parts of the Flower Mark.

Filled Flower:

- Used as a focus point when filled with colour.
- Used as an image container/clipping mask.

Outline Flower:

- Used as a subtle background graphic across all media, where applicable.

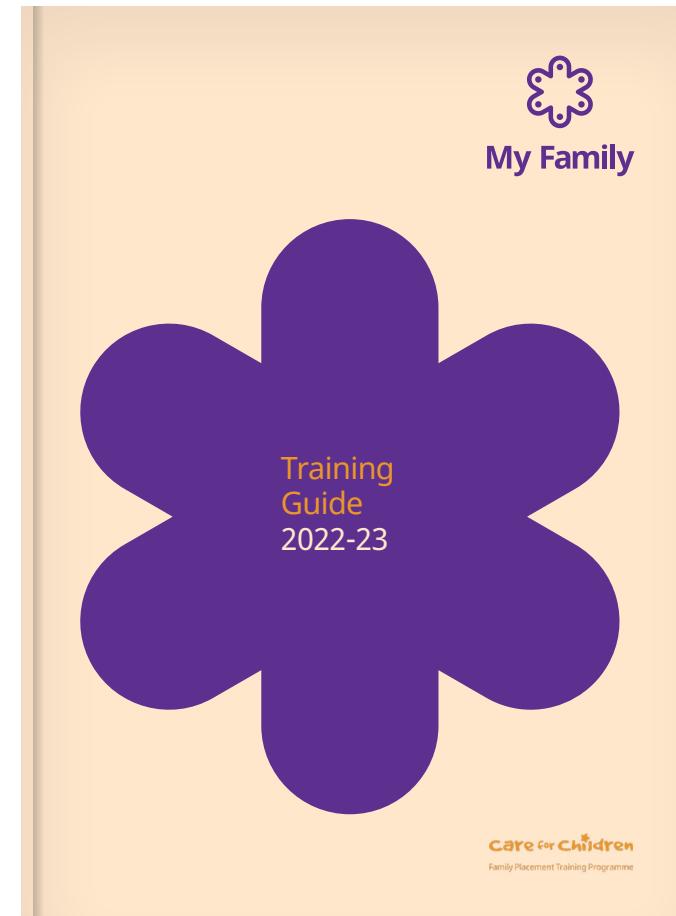

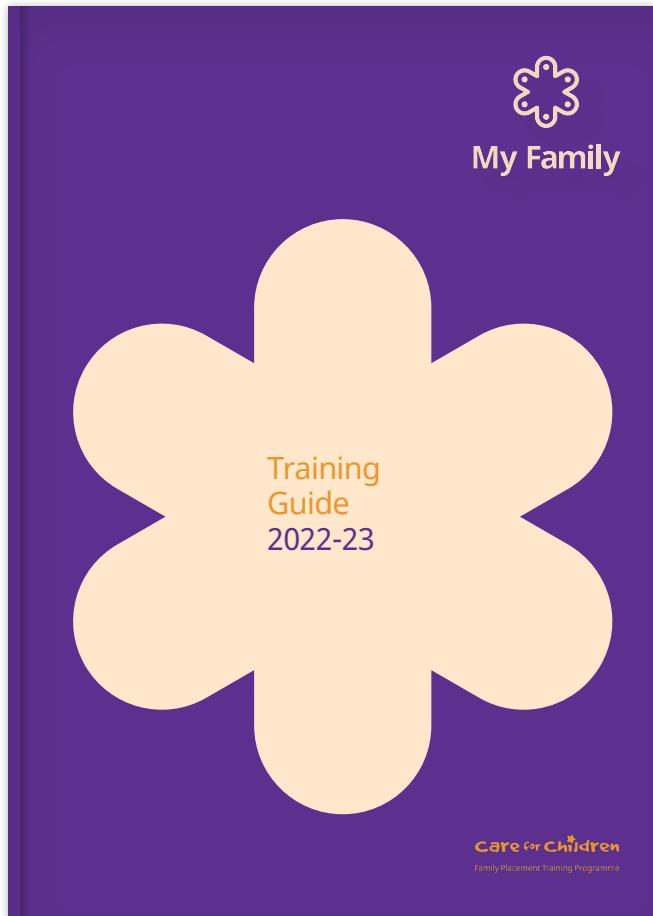

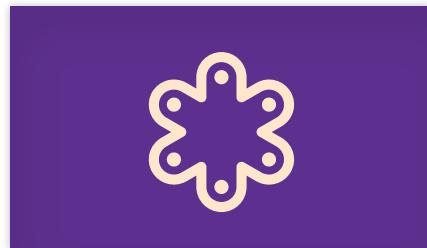

Please refer to the next few pages for more examples on how to best utilise the Graphic Elements.

4: Example Application

Please note: The following examples are for concept purposes only and are intended to inspire creativity only.
